ADDS 4000/260
Video Display Terminal

Wyse 50, 50+ and 60 VDT emulation set

Best UXIX compatibility and Video performance in a 14" monochrome Terminal

High reliability backed by our 3 year warranty

Designed and manufactured in the USA

The ADDS 4000/260 has advanced data access, data manipulation and display features, including cut and paste and dual host/dual session capabilities. The terminal features selectable refresh rates up to 100Hz for clear, flicker free viewing and an ISO 9241.3 compliant mode to reduce operator eye strain. Bezel to bezel over scan is also available up to 82 Hz.

The ADDS 4000/260 emulation set includes the Wyse WY-50/50+, WY-60, DEC VT-100, VT-220, VT 320 and the ADDS Viewpoint and PC-Term. The ADDS 4000/260 is an ideal solution for customers using Wyse display terminals in legacy applications. As a SCO developer, you can count on the ADDS 4000/260 to function properly in the SCO environment.

Built in the Boundless "JIT" manufacturing facility on Long Island allows rapid delivery of any terminal in any configuration. You can select the ADDS 4000/260 of your choice in any phosphor color with any keyboard with the assurance that your order will be delivered quickly. Boundless backs its ADDS 4000/260 with a money back guarantee and a 3 year warranty.
